

Only the Brave™ by DIESEL

ULTRALIGHT ALLOY
6061-T6

SINGLESPEED

HYDROFORMED SYSTEM

La tecnologia ed il know-how Pinarello incontrano lo stile e la creatività Diesel per creare "Only the Brave", il nuovo marchio di urban bike decisamente alternativo. Freni a disco, cambio Shimano nascosto sul mozzo posteriore, leggera e versatile con un design unico per rivivere lo spirito dei Messenger americani che combattono il traffico delle metropoli con il mezzo più ecologico del mondo.

Un progetto congiunto in cui Pinarello LAB ha tradotto in tecnologia le idee del Diesel Creative Team.

È nato un telaio con tecnologia Hydroforming in lega 6061 T6 dal design unico per offrirvi agilità e scatto, caratteristiche cruciali per chi vuole vincere il traffico cittadino! Disponibile in 6 misure: 42 45 48 51 53 56

Pinarello's technology and know-how blend with Diesel's style and creativity to create "Only the Brave", the brand-new urban bike to ride the world's streets. Single speed, light and versatile to adapt safely to all kinds of urban streets, it is reminiscent of the American messenger bikes in its design and soul, but – as with all Pinarello models - it is also the result of a careful study of balances, strengths and efficiency. Pinarello works on all its creations inside its R&D lab, where the line of the bike was studied together with the Diesel Creative Team and further developed by the Pinarello lab using the SOE system and analysis. The Hydroformed Aluminium 6061 T6 used for the frame allows for an original and distinctive design, while preserving handling agility, cornering ability and speed; crucial features for riding urban streets. Available in 6 sizes: 42 45 48 51 53 56
